

NORTH WEST **TELE**PHARMACY⁺ Solutions

We are excited to share with you a few of the things we have been working on, upcoming events, recently published articles and building our social media presence

Telepharmacy helps remote hospitals keep their chemo satellites open

For patients diagnosed with cancer
in small rural towns, accessing
chemotherapy close to home can

be a challenge. Many must travel long distances – sometimes in difficult driving conditions – to consult with their oncologist at a regional cancer centre.

Did you know that NTS has registered pharmacy technicians on staff to help with:

- Remote Completion of Best Possible Medication History (BPMH)
- Remote Product check for compounded items
- Remote Distribution Support

Enjoy seamless support and unrivaled efficiency for your team's triumph.
