

More Than Telepharmacy. It's Total Pharmacy Optimization.

Most hospitals know NTS for world-class telepharmacy. But the real "secret sauce" lies in the consulting expertise built directly into our telepharmacy contract. We don't just process orders; we help you design the systems that make those orders safer, faster, and more cost-effective.

- ✓ Workflow & Operations: Full pharmacy operation reviews to eliminate bottlenecks.
- ✓ Safety & Compliance: Expert sterile compounding workflow and cleanroom design.
- ✓ Technology Integration: Seamless pharmacy automation and IV Smart Pump builds.
- ✓ Clinical Excellence: Optimized medication management and MedRec workflows.

The NTS Advantage: You aren't just procuring a service; you're gaining a dedicated clinical engineering team. Whether you're redesigning a cleanroom or recalibrating your automation, we provide the blueprint for a modern, efficient pharmacy.
