2026 PAM

As Pharmacy Appreciation Month comes to an end, we want to extend our heartfelt thanks to all of our incredible partners. Your dedication and support empower us to continue the work we do—work that simply wouldn't be possible without you. And to our amazing staff: *you* make everything we do possible. Your passion, commitment, and hard work drive our mission forward every single day. We are truly grateful for each of you.

Thank you for being such an essential part of our community.

Sterile Tip of the month

Planning chemical contamination wipe sampling for your hazardous sterile compounding facilities? Use published studies and internal risk assessments to develop your facility specific sample map based on locations that are at the highest risk of hazardous surface contamination. Study available: Journal of Oncology Pharmacy Practice, Canadian monitoring program of the surface contamination with 11 antineoplastic drugs in 124 centers <https://pubmed.ncbi.nlm.nih.gov/37021440/>

North West Company, 77 Main Street, Winnipeg, Manitoba R3C 2R1, Canada
